MARINE MECHANICAL ENGINEER

Guido Perla & Associates, Inc. (GPA) is looking for an experienced Marine Mechanical Engineer to join our expanding staff.

Primary responsibilities will include:

/ Developing regulatory class marine mechanical systems for various vessels, typically diesel electric and under 300 ft in length.

The candidate will be expected to be able to develop original mechanical systems designs, including diagrams, calculations, specifications, A&D drawings and production engineering support.

Additional responsibilities will include:

/ Interaction with clients to provide system and equipment recommendations.

/ Proposal development and specification writing.

/ Mentorship of junior engineers working on EIT and PE licenses.

The ideal candidate should have at least ten years experience in the marine design industry and be well versed in regulatory and classification requirements (ABS, USCG, etc.).

At-sea or shipyard experience is a plus.

Applicant must be a registered Professional Engineer in Mechanical Engineering (WA State preferred, but not required).

A US residence visa or work permit is required. GPA offers competitive compensation and excellent benefits.

Please send your resume to hr@gpai.com
